

JOSEPH BAYES

(Joey)

Software Engineer

PROFILE

I am a software engineer offering over nine years of technical experience in a wide range of domains, as well as eight years of life and leadership experience as a United States Marine. I live for solving problems, crushing challenges, and making my family and team-members proud.

BS of Information Technology

WORK EXPERIENCE

Delta Defense | Technical Lead

2021-Present

Delta Defense provides me with the opportunity to use my talent as a software engineer to contribute to a cause that I am deeply aligned with. In addition, I've been empowered to drive architectural decisions and lead other software engineers with an emphasis on a culture of quality, scalability, and automation.

Qualtrax | Software Engineer

2019-2021

In addition to spearheading initiatives relating to security, analytics, and deployment automation, this product company offered me the opportunity to work with a team of engineers that shared my passion for software engineering excellence.

Modea | Software Engineer

2016-2019

I served as the lead engineer on several high-profile software projects at this fast-paced and effective consultancy. Those projects ranged from large web apps, including intranet sites, to mobile apps and shared software packages.

United States Marine Corps | Staff Sergeant (E6)

2008-2016

Aviation Supply Specialist 6672
Marksmanship Coach 0933
Morale Welfare & Recreation Specialist 4133

I served across several duty stations, including Iwakuni, Japan, Jacksonville/Havelock, NC, and Oceanside, CA. During my time as a Marine, I earned the rank of Staff Sergeant, deployed to Afghanistan, and earned several personal awards, including two Navy and Marine Corps Commendation medals.
